Investment process

- 1. Start with the entire unconstrained universe**
all listed stocks globally (~40,000 stocks)
- 2. Quant filter**
based on revenue growth, margins, returns on capital, operational gearing, debt and founder involvement (~500 stocks)
- 3. Qualitative filter**
based on founder behaviour, motivations of senior executives, brand reputation, and product quality (~50 stocks)
- 4. Valuation, monitor and track**
monitor and wait; buy only when the price is within our valuation range (10-20 holdings)
- 5. Recycle**
if valuations reach excessive levels no longer commensurate with expected growth, recycle capital into new opportunities

\$97,604

Value of \$100,000 invested since inception

Fund Return: Calculations based on exit price in AUD, after deduction of management and administration fees but excludes taxation. Assumes all distributions are reinvested.

Benchmark: MSCI AC World Net Index (in AUD).

Inception: 7 July 2017.

Note: in general, we invest when prices are decreasing. The fund's short-term returns may suffer after we make an investment as we tend to invest before the bottom. However, we take a long view – for quality companies, investing when their price is decreasing represents good value.
